PROFILE

I'm an open-minded person with an inquisitive nature and an eagerness to learn about a broad range of subjects. Currently pursuing a **BSc** to become a **Software Engineer/Full Stack Developer**. Seeking a Junior Developer or Entry-Level position after graduation. Also looking for an Internship from February 17 to May 25, 2026. While I'm still in school my first email account is the best way to contact me.

WORK EXPERIENCE

- **Wase Werkplaats - Temse/Zele** 2011 - 2021
Industrial Printing Operator
 - Temse: Designing labels in CodeSoft, maintaining and working with various types of thermal printers to create labels for all the products the company sells. Sometimes contacting the clients to enquire about the designs.
 - Doing Quality control checks of the finished pharma products.
 - Zeel: Printing blister cards on an industrial scale for various Electronics companies.
- **various interim jobs** 2007 - 2011
- **Alcon Laboratories - Puurs** 2007 - 2007
Chemical Laboratory Technician
 - Working in a normalized laboratory environment creating basic solutions (Ph. - substances) that served as the basis for processing further down the line in a sterile lab (clean room) to create pharmaceutical salves used mainly for eye surgeries.
- **Sugar Factory of Moerbeke** 2006 - 2006
Lead Sample Quality Control Analyst
 - One of two Inspectors responsible for quality control of incoming sugar beet shipments, mainly handling administrative tasks.
 - We were heading a team of 5 people whose job it was to test the quality of a sample of the incoming shipments to see if they conformed with certain standards (laboratory).

HOBBIES

- Videogames
- Sci-fi movies
- Walks in the countryside
